* Patterned backgrounds and endsheets are not available in Metallic Gold and Metallic Silver. Metallic inks may incur an additional charge – please consult your Lifetouch Yearbook Representative.

Note: For best results, certain color combinations should be avoided. Avoid combining very dark colors (such as navy blue, forest green and black) because the artwork on the final printed cover will have little contrast, making it hard to see. Also, if choosing one ink color for an Original or ProDesign cover, avoid yellow. Because yellow is such a light color, it may be difficult to distinguish the artwork on the final printed cover.
